

WORKPLACE INSTRUCTION 1/2010

COVERING OF TRUCKS AT EAW

Version	Date	Reason for Change	Document/ Para Ref	Made By	Description of Change
1.0	6 May 2010	Initial Version		Terry O'Connor	Initial Version – approved by Terry O'Connor (LSGM)

Prelude:

The following is a summary of mandatory controls and corrective actions applicable to the identified risk. All stated corrective actions or safety directions stated below must be complied with to ensure that all known risks are controlled.

The summary has been prepared in accordance with the requirements of Regulation 39 of the WORKPLACE HEALTH AND SAFETY REGULATIONS *as in force at 1 July 2008*

Introduction:

As required by NT Law, trucks hauling dry products on public roadways are to cover the loads to prevent product falling from the trailers and prevent excessive dust escaping from the loads.

Instruction:

All trucks used to haul dry bulk product within East Arm are to be covered.

Trucks currently engaged in hauling minerals for export from stockpile have until 01 Aug 2010 to be covered. Trucks hauling minerals for export before then are to reduce the level of the load so that the product does not rise above the windline of the trailer hauling the product.
