

# WORKPLACE INSTRUCTION 4/2010

## COVERS FOR RAIL DUMP HOPPERS

Version	Date	Reason for Change	Document/ Para Ref	Made By	Description of Change
1.0	6 May 2010	Initial Version		Terry O'Connor	Initial Version – approved by Terry O'Connor (GMLO)

### Prelude:

The following is a summary of mandatory controls and corrective actions applicable to the identified risk. All stated corrective actions or safety directions stated below must be complied with to ensure that all known risks are controlled.

The summary has been prepared in accordance with the requirements of Regulation 39 of the WORKPLACE HEALTH AND SAFETY REGULATIONS *as in force at 1 July 2008*

### Introduction:

An inspection of the rail dump has highlighted issues in regards fall prevention at the Rail Dump.

### Instruction:

Fall prevention covers for the Rail Dump are to be put in place following the unloading and clean down of each rail discharge.

Temporary covers are currently available and are required to be placed on top the Grizzly Bars to provide protection.

A further instruction will be issued when the final permanent installation is complete.
